

10. Ask ChatGPT OR Google Gemini to generate a 100–120 word paragraph on: “Is online learning better than offline learning for college students?”

- a) Run the AI-generated text through Grammarly and any plagiarism-check tool.
- b) Now manually search online to check if similar sentences exist on blogs or articles.
- c) Identify 2–3 biased statements in the AI answer, such as:
 - i. Over-generalizations
 - ii. One-sided opinions
 - iii. Unproven claims
- d) Rewrite the entire paragraph in a neutral and balanced way, using AI only for grammar suggestions.
- e) Submit 3 screenshots:
 - i. Plagiarism check result
 - ii. Grammarly suggestion page
 - iii. Original AI paragraph vs your rewritten unbiased version

The screenshot shows the JustDone Plagiarism Checker interface. At the top, there is a navigation bar with the JustDone logo, links for Plagiarism Checker, AI Humanizer, AI Detector, AI Tools, and Pricing, a Log In button, and a Try JustDone button. Below the navigation is the title "Plagiarism Checker by JustDone". A subtext below the title reads: "Easily spot and correct plagiarism to make sure that your work is one-of-a-kind." A red banner at the top indicates a "High plagiarism level" with a checked checkbox icon. The main content area contains a text box with the following text: "Online learning and offline learning both have their own advantages for college students. Online learning offers flexibility, allowing students to attend classes from anywhere, save travel time, and access recorded lectures for revision. It is especially helpful for students who prefer self-paced learning. On the other hand, offline learning provides direct face-to-face interaction with teachers and classmates, which improves understanding, communication skills, and classroom discipline. It also offers better opportunities for practical work, labs, and campus activities that help in overall personality development. Overall, while online learning is convenient, offline learning is generally considered better for college students because it helps improve focus,". Below this text, there are two sections: "100% Average plagiarism level" and "Remove plagiarism from your text *“Online and offline learning”*". A large red progress bar at the bottom shows the average plagiarism level at 100%, with a yellow segment indicating 36% for "Minor changes" and a blue segment indicating 7% for "Identical".

High plagiarism level

Online learning and offline learning both have their own advantages for college students. Online learning offers flexibility, allowing students to attend classes from anywhere, save travel time, and access recorded lectures for revision. It is especially helpful for students who prefer self-paced learning. On the other hand, offline learning provides direct face-to-face interaction with teachers and classmates, which improves understanding, communication skills, and classroom discipline. It also offers better opportunities for practical work, labs, and campus activities that help in overall personality development. HUMANIZE VERSION

Both types of learning have some advantages, whether you're learning in college offline or online. Students can attend classes from anywhere with online learning. It saves your travelling time and you can revise recorded lectures anytime. Those who learn better on their own are better equipped. On the other hand, offline learning enhances understanding and improves communication skills as students interact directly with teachers and classmates. The students also learn classroom discipline in real life. It also provides excellent opportunities for campus activities, practical work, labs which helps in the overall development of personality. To sum up, even though the distance learning option is convenient and one can study as per their preference but offline learning is considered better generally. This is because offline learning helps in improving the focus of students, real-time communication, and learning through experience.
